

CREATIVE

SEEING, REFLECTING & CREATING FROM THE EVERYDAY

SEEING

Looking deeper at the everyday - whether created by God or mankind, we live in a world where everything has been designed and created. What do we notice?

REFLECTING

Reflecting on the world around us. As creative humans we have different responses and perspectives to ideas and design. What do we think? How does it make us feel?

CREATING

Using our seeing and reflecting to inspire our own creating. Each session focuses on a different theme. All materials will be provided to develop a creative response.

OPEN TO ALL
